DiGioia Gray joins Gannett Fleming

Natick, MA (August 1, 2023) – DiGioia Gray, a firm that provides power delivery, geosciences, geotechnical, and civil engineering solutions, joined engineering and infrastructure services firm Gannett Fleming. The acquisition will deepen Gannett Fleming's existing transmission and substation engineering offering and allow Gannett Fleming to serve power and utility clients on a larger scale.

Founded in 2004 by Tony DiGioia Jr., PhD, PE, and Dick Gray, PG, DiGioia Gray provides technology-enabled engineering solutions for customers in the power and utility, industrial, and transportation end markets. The Company offers an integrated suite of power delivery solutions, including transmission line and substation design, geologic engineering, and foundation analysis and design, that expand utility infrastructure and enhance resilient power projects.

DiGioia Gray has over 120 engineers, geologists, and technologists with deep technical expertise to support the delivery of critical infrastructure projects using proprietary software tools and industry-leading research.

"We have built an innovative, inclusive, and entrepreneurial culture at DiGioia Gray that is dedicated to high-quality work and thought leadership, as evidenced by our trusted advisor status with clients and portfolio of proprietary software tools developed in partnership with the Electric Power Research Institute," said Jim Brennan, DiGioia Gray President. "Joining a leading firm like Gannett Fleming allows us to offer an enhanced combination of skills and resources to elevate our client service, further expand our service offering, and drive sustainable growth. This is a transformative combination, and we look forward to accelerating our growth trajectory."

Morrissey Goodale, a specialized management consulting and research firm exclusively serving the architecture, engineering, and environmental consulting industries, initiated the transaction and advised DiGioia Gray.

About Morrissey Goodale:

Morrissey Goodale has helped hundreds of clients transform and grow their architecture, engineering, and environmental consulting companies into high-level performers through strategic business planning, mergers and acquisition advisory, valuation and ownership transition, market research, marketing and business development, leadership training and development, Lean Operation Strategies, organizational development and management, virtual reality solutions, and executive search. Morrissey Goodale's team of M&A consultants assist throughout the M&A process, from preparing firms for a transaction to a successful integration.

Morrissey Goodale's extensive network of relationships with AE industry decision-makers around the globe uniquely qualifies the firm to identify the right buyers or sellers and guide AE firms through the complex merger or acquisition process, from conception to close.
