

ABBAE Expands into Dallas with Integration of The Conley Group

October 4, 2019

Allana Buick & Bers and Conley Group are proud to announce the integration of two elite pioneers in the building enclosure consulting industry.

The new ABB/Conley Team unites over 200 talented industry professionals and integrates knowledge and experience gained from the successful delivery of over 12,000 global projects over the past 33 years. Completed construction value of our projects totals over \$15 billion in building envelope systems construction. Most importantly, we share a commitment to client service and project excellence.

Primarily based out of the San Francisco Bay Area, ABB has grown over the past three decades and has established offices all around the US, including Southern California, Oregon, Washington, Nevada, North Carolina, and Hawaii. We look forward to working with the Conley Team in this new market.

ABB has always believed in growth, for both itself and the industry as a whole. We believe that the Conley Group is the best fit to support ABB's goal to expand the company and industry in other regions and market segments.
