

HMB Professional Engineers announces strategic growth partnership with Trilon Group

September 1, 2023

HMB Professional Engineers, a Kentucky-based engineering firm, is thrilled to announce a strategic partnership with Trilon Group, a family of infrastructure consulting businesses. The partnership gives HMB additional capital and resources to expand its services and markets, while better serving its clients.

Founded in 1979, HMB is a leading provider of engineering services to state and local agency clients throughout the southeast. “HMB’s strategic growth goals can be better achieved with a strong, well-resourced partner that shares their core beliefs, culture and vision”, said HMB President Rob Dowler.

“One key thing that really spoke to us, is that Trilon has the same approach to business as HMB,” Dowler said. “Even as we have grown HMB in recent years, we have worked to maintain our small firm feel while adding the expertise and capacity to deliver large firm capabilities to our clients. That is what Trilon wants – HMB to stay HMB. By partnering with Trilon, we will continue to grow in our existing markets and expand into new markets, and our 100+ employees will benefit from more opportunities for career growth.”
