

## Underhill Engineering Team Joins GEI Consultants

*October 17, 2023*

The experts from Underhill Engineering have joined consulting engineering and environmental firm GEI Consultants.

Former Underhill President, Chris Webster, P.E., F. ASCE, will now serve as GEI's Geotechnical Practice Leader. As part of GEI, Chris and his team of geotechnical, geo-design, dam restoration and safety, and geo-construction professionals will continue supporting public and private clients in Virginia, West Virginia, and Maryland.

"We are excited to welcome Chris and his team to GEI," says Jesus Gomez, PhD, PE, Geostруктурал Practice Leader and Vice President at GEI. "Chris is an industry veteran who has significant experience executing complicated geotechnical projects throughout Virginia and the mid-Atlantic Area. We look forward to working with them moving forward."

Chris has 40 years of experience in the industry providing professional engineering services for federal/state/local government, owners, developers, AE firms, lenders, attorneys, and contractors. Their team's high-profile projects include dam/stream restorations, roads/bridges/tunnels, walls/slopes, commercial/industrial facilities, estates/farms/agri-tourism, and forensic studies. Chris holds a Master of Science in Civil Engineering from Virginia Tech, and a Bachelor's of Science in Civil Engineering from the University of Virginia. He is a Thomson Reuters-registered expert witness and past adjunct instructor at the University of Virginia.
