

*February 28, 2024*

We are thrilled to announce that ITG Communications has officially acquired Specialized Engineering Services (SES), a renowned firm specializing in Design Engineering for the telecommunications industry. This strategic acquisition marks a significant milestone in our journey, expanding our footprint and enhancing our capabilities within the telecom sector.

SES has built a formidable reputation for its innovative solutions and expert engineering services, making it a perfect complement to ITG Communications' existing offerings. With this acquisition, we aim to integrate SES's expertise in design engineering with our comprehensive suite of telecommunication services.

This expanded portfolio not only strengthens our position in the market but also allows us to offer a more diverse range of services to our clients. Our combined expertise will enable us to tackle larger, more complex projects and deliver even higher quality results.

We are excited about the opportunities this acquisition presents for our team, our clients, and the telecommunications industry as a whole. Together, ITG Communications and SES are set to drive innovation and lead the way in providing cutting-edge telecommunication solutions
