

Pape-Dawson Acquires Georgia-Based Firm Maxwell-Reddick

February 19, 2024

Pape-Dawson Engineers, LLC has acquired Georgia-based engineering firm, Maxwell-Reddick, as part of its strategy to expand its industry-leading civil engineering, surveying, and land planning practice across the United States.

Maxwell-Reddick was founded in 1964 and provides a wide range of services including land planning, civil engineering, hydrology and hydraulics, and surveying. The firm is headquartered in Statesboro, Georgia with a second office in Atlanta. Maxwell-Reddick is Pape-Dawson's first acquisition in Georgia.

"This acquisition supports Pape-Dawson's long-term strategy to expand our markets and services through thoughtful partnerships with leading firms across the nation," said Pape-Dawson President, Gene Dawson. "Maxwell-Reddick's technical expertise coupled with their leadership's commitment to employee satisfaction make the firm a strong addition to the Pape-Dawson family."

"Maxwell-Reddick and Pape-Dawson share similar values, not only in our work but also in our people," stated Charles "Joey" Maxwell, President at Maxwell-Reddick. "Joining Pape-Dawson allows us to offer expanded resources for our clients and increased opportunity for our employees to grow with us. We're excited for the future together."
