**AE Engineering Joins WSB**

Natick, MA (February 20, 2024) – AE Engineering, a high-growth transportation infrastructure engineering firm based in Jacksonville, FL, joined WSB, one of the nation’s fastest growing infrastructure engineering and consulting firms.

The strategic addition of AE will solidify WSB’s presence and service offerings in the southeastern United States. WSB is a portfolio company of GHK Capital Partners, a leading middle-market private equity firm based in Greenwich, CT.

“WSB is a strong and growing firm that is an excellent match for AE and our clients,” said Rod Myrick, AE’s president. “We’ve always tried to represent the best in the industry and to be a trusted asset to our clients and partners. AE is joining a firm with that same commitment. We are eager to build on the strengths and success of WSB by introducing expanded services to complement our existing operation in Florida and throughout the Southeast.”

“WSB is moving forward in building a national brand,” said Bret Weiss, WSB’s president and chief executive officer. “The Southeast is an important market for transportation infrastructure engineering given the significant population growth and infrastructure investment present in the region. AE has an outstanding reputation, and their leaders match our culture with their approach and entrepreneurial spirit. We are eager to build on the success of AE by introducing expanded services to complement their already successful program.”

Morrissey Goodale, a specialized management consulting and research firm exclusively serving the architecture, engineering, and environmental consulting industries, initiated the transaction and advised AE Engineering.

About Morrissey Goodale:

Morrissey Goodale has helped hundreds of clients transform and grow their architecture, engineering, and environmental consulting companies into high-level performers through strategic business planning, mergers and acquisition advisory, valuation and ownership transition, market research, marketing and business development, leadership training and development, Lean Operation Strategies, organizational development and management, virtual reality solutions, and executive search. Morrissey Goodale's team of M&A consultants assist throughout the M&A process, from preparing firms for a transaction to a successful integration.

Morrissey Goodale's extensive network of relationships with AE industry decision-makers around the globe uniquely qualifies the firm to identify the right buyers or sellers and guide AE firms through the complex merger or acquisition process, from conception to close.
