

## Expanding Our Reach on the East Coast

*January 30, 2024*

We have some exciting news to share with you, RTM Engineering Consultants has recently merged with Alban Engineering – a distinguished MEP consulting firm based in Hunt Valley, MD, founded in 2014 by Jeff Alban.

Alban Engineering specializes in mechanical, electrical, plumbing, lighting design, and sustainability solutions, with a focus on K-12, higher education, worship, and other public and community facilities. Their portfolio showcases expertise in projects of varying sizes, from large-scale new building constructions to building system replacements and renovations. This strategic merger opens new opportunities for RTM by expanding our presence on the East Coast and allowing the team to combine experience and resources to better serve educational clients nationwide.

“We have great respect for the technical expertise possessed by the Alban Engineering team. Their well-established reputation within the educational market is a testament to their wealth of experience and dedication to building lasting client relationships. We are truly privileged to be welcoming them to RTM,” said Tony Mirchandani, CEO of RTM Engineering Consultants.

Beyond technical expertise, Alban’s commitment to excellence shines through their client-centric approach. Their success is rooted in a collaborative team that listens intently, thinks creatively, and solves problems with finesse. Their principles align seamlessly with RTM’s CORE values, creating a powerful alliance grounded in an unwavering dedication to clients and delivering innovative and sustainable design solutions.
