

## Electric Power Engineers Acquires ENER-i.AI

*January 12, 2024*

Electric Power Engineers, LLC, a leading power systems and energy consulting engineering firm, today announced its acquisition of ENER-i.AI, a provider of advanced software solutions for energy intelligence focused on smarter grid planning and operations optimization to meet future energy demands. ENER-i's™ SaaS platform offers innovative energy software solutions, including the ENER-i™ Energy Intelligence Platform and ENER-i™ InSights, both exceptionally capable tools for holistic planning, operation, and design of modern power grids. Terms of the acquisition were not disclosed.

“By integrating ENER-i.AI’s advanced software solutions into our portfolio of solutions, EPE is taking a major leap forward in our commitment to deliver cutting-edge products and capabilities to address the industry’s growing demand for digitalization and sustainability using Energy Intelligence,” said Hala Ballouz, President & CEO of Electric Power Engineers. “We are excited to welcome ENER-i.AI’s exceptional product offering and solid team of software and geographic information systems development expertise into EPE”, she added. “With ENER-i.AI’s capabilities in-house, EPE will continue to successfully lead the energy transition by holistically designing the digital transformation of our grids to deliver clean and sustainable energy.”

“Our team is excited to join Electric Power Engineers and work seamlessly with EPE’s power systems engineering experts to fuel the development and delivery of solutions to solving complex energy challenges,” said Dan Kuklov, Vice President of Software Development at ENER-i.AI.

EPE boasts a talented team of more than 200 power systems engineers dedicated to innovation and addressing the rapidly evolving challenges and needs in our increasingly electrified economy. This strategic move aligns with EPE’s commitment to attract and retain the best talent in the industry and deliver cutting edge innovation to support industry needs and its growing client base.
