

Verdantas Acquires Lewandowski Engineers

March 11, 2024

Verdantas, a private-equity-backed firm specializing in environmental consulting, sustainable engineering, modeling and digital technology, announced today it has acquired Lewandowski Engineers, (Lewandowski). This strategic move further solidifies Verdantas' commitment to excellence and expands our service offerings in the Great Lakes Area.

Based in Toledo, Ohio, Lewandowski has over 100 years of experience and has earned a reputation as a trusted civil engineering and surveying services firm in the Great Lakes area. Their expertise spans survey, site civil engineering, and municipal services. In addition, the team offers top-notch waterfront services including shallow and deep-water bathymetric surveys, multi-beam echo sounding, and near shore topographic mapping.

"The integration of Lewandowski Engineers into our Great Lakes Area represents a partnership spanning multiple decades, now coming to fruition. Their expertise and commitment align seamlessly with Verdantas' values and their niche services align with our sustainable and technology integrated approach. Together, we are poised to deliver exceptional services to our clients," said Jesse Kropelnicki, CEO of Verdantas.

Ashley Chang, Vice President at RTC Partners, said, "We are delighted to have the Lewandowski team join Verdantas. The expansion of specialized waterfront surveying services will enhance Verdantas' ability to serve clients effectively."

With this strategic acquisition, Verdantas is well-positioned to catalyze growth in the region, offering innovative solutions to clients and reinforcing its position as a leader in environmental and engineering services.
