

Vertex Acquires Trilogix Consulting, Llc

March 27, 2024

The Vertex Companies, LLC (“VERTEX”) is pleased to announce the acquisition of TriLogix Consulting, LLC (“TriLogix”), a highly respected construction claims, scheduling, and risk management firm that is based out of New Jersey and offers its services throughout the United States. TriLogix’s team brings decades of consulting and testifying experience and its staff includes professional engineers, CPM scheduling experts, and professionals experienced in supporting the management of complex construction projects.

“We couldn’t be more excited to welcome TriLogix to the VERTEX team because both firms embrace a culture that maximizes urgency, learning, value, and synergies,” said VERTEX’s Chairman of the Board, Bill McConnell. “TriLogix’s suite of claims and advisory expert services will bolster VERTEX’s POWER OF AND strategy, which blends our forensics AND multi-disciplined services, and this serves as a key differentiator at VERTEX.”

VERTEX continues to seek acquisitions that add exceptional talent, complementary employee-focused cultures, and a deep commitment to clients. Jeff Picard, Chief Strategy Officer of VERTEX said, “The addition of the amazing team at TriLogix represents our continued commitment to better outcomes for our clients, colleagues, and communities.” Hugh Coyle, Managing Director of VERTEX’s Project Advisory team noted, “We are excited to welcome the TriLogix team to VERTEX. This partnership adds great synergies that benefit the organization and furthers our commitment to providing our clients with the best possible construction project control services in the industry.”

TriLogix and its clients will have direct access to VERTEX’s resources and suite of specialized services. In a joint statement, TriLogix Leadership, Andrew Borglum, PE and Michael DiPrimo explained, “With VERTEX, our team will continue to bring the commitment to quality service and technical excellence our clients have come to rely on while expanding the breadth of our services and geographic footprint.”
