Verdantas Acquires Project Navigator

Natick, MA (April 9, 2024) – Verdantas, a private-equity-backed firm specializing in environmental consulting, sustainable engineering, modeling and digital technology, acquired Project Navigator, Ltd. (PNL), a firm that offers management and project coordination services, especially at Federal (CERCLA) and State Superfund sites.

With offices in Tustin, California, and Houston, Texas, PNL will enhance Verdantas' comprehensive services in the Western region and expand Verdantas' geographic reach in the Gulf Coast states. PNL is a recognized leader in the environmental sector for stewarding complex, multi-party sites to closure.

"PNL brings robust program management capabilities for CERCLA and RCRA sites, along with technology-focused service offerings that complement our existing environmental assessment and remediation practice. These services align perfectly with our commitment to sustainability and technology," noted Jesse Kropelnicki, CEO of Verdantas.

Dr. Ian A. Webster, President of PNL, said, "Our partnership with Verdantas opens new avenues to serve our long-standing clients. By joining Verdantas, we can offer an expanded suite of project management and remediation services, tailoring solutions to meet their diverse needs. Equally important, this collaboration empowers the PNL team to tackle a broader array of projects, fostering further professional growth and innovation. We're thrilled to join Verdantas and eagerly anticipate collaborating with their talented team."

Morrissey Goodale, a specialized management consulting and research firm exclusively serving the architecture, engineering, and environmental consulting industries, initiated the transaction and advised Verdantas.
