

PEA Group Acquires ASTI Environmental, Expanding Their Range of Professional Services

April 24, 2024

PEA Group, a leading provider of comprehensive site design consulting services, announced today the acquisition of ASTI Environmental, a well-established environmental services company. With this strategic acquisition, PEA Group further solidifies its position in the industry and expands its capabilities in the environmental and ecological sectors.

Under the terms of the agreement, both PEA Group and ASTI Environmental will retain their respective trade names. ASTI Environmental will operate as a division of PEA Group, ensuring a seamless transition for clients of both organizations. Current clients can now benefit from an even broader range of professional services to support their local and regional projects.

ASTI Environmental will continue to operate with the same exceptional leadership, personnel, and high-quality environmental services they are known for. Additionally, their clients will have access to the additional professional services provided by PEA Group, further enhancing their project capabilities.

“We are excited to welcome ASTI Environmental to the PEA Group family,” said Daniel Stys Vice President of PEA Group. “This acquisition enables us to provide access to environmental and ecological services for our clients. By combining our expertise and resources, we strengthen our multi-disciplinary project approach and reinforce our commitment to delivering exceptional results.”

The acquisition of ASTI Environmental aligns with PEA Group’s long-term growth strategy and their dedication to serving their clients’ evolving needs. This strategic move enhances PEA Group’s position as a comprehensive and diversified engineering and consulting firm.
