

VDA WELCOMES APEX TO THE TEAM

July 16, 2024

VDA is pleased to announce that APEX Elevator Inspection & Testing, LLC has joined the VDA family of companies.

Headquartered in Collegetown, PA, APEX was founded for the purpose of providing highly specialized elevator inspections. APEX is led by Sina Mozzafari, who will continue in his current capacity through the integration.

APEX joins VDA's family of best-in-class elevator inspection companies, including Allsafe Elevator Inspections, Dominion Elevator Inspections, and High Sierra Elevator Inspections.

VDA's CEO, Gavin Campbell, said, "I am pleased that Sina and the APEX team decided to join the VDA family of companies. With the leading position in inspections, APEX can now leverage VDA's consulting expertise to provide end-to-end vertical transportation solutions in the Philadelphia market."

Theresa Tsamoutalis, VDA's Senior Vice President of Inspections, was closely involved in bringing the two companies together. "Sina and his team have built an exceptional elevator inspection company that has grown to become the most respected market leader in their geography. APEX is a natural fit to join the VDA family of inspection firms that are committed to providing clients with best-in-class, exceptionally managed inspection services at a fair price, leading to long-term partnerships with our clients," said Theresa.

APEX expands VDA's national inspection footprint, while APEX will benefit by being able to offer its clients the more robust consulting service offerings provided through VDA.
