**LaBella Associates Acquires Process Pipeline Services**

Natick, MA (August 14, 2024) – LaBella Associates, an international architecture, engineering, environmental, and planning firm, acquired Process Pipeline Services, Inc. (PPS), a provider of engineering, design, and consultation services focused on the natural gas industry.

With offices in Massachusetts and New Hampshire, the addition of PPS expands LaBella’s presence in the Northeast and will help the firm meet the burgeoning demand for planning, engineering, designing, permitting, and project execution in the natural gas utility market.

More specifically, PPS’s core services support the transmission, distribution, metering, pressure regulation, code compliance, project engineering, CAD design, and instrumentation, as well as the system analysis needs of local distribution companies throughout the New England area.

“We are thrilled to welcome the deeply experienced and highly consultative PPS team to LaBella,” said Jeff Roloson, President, LaBella Associates. “Known for their unmatched understanding of the complexities of the natural gas utility market, the team has also established a reputation of client excellence, with an impressive track record of meeting project goals on time and on budget.”

Morrissey Goodale, a specialized management consulting and research firm exclusively serving the architecture, engineering, and environmental consulting industries, initiated the transaction and advised LaBella Associates.
