

## EnSafe Acquires Resolute Environmental & Water Resources Consulting Services

*January 8, 2025*

EnSafe is pleased to announce the acquisition of Resolute Environmental & Water Resources Consulting Services (Resolute).

Resolute has been a leading environmental consulting firm in the Southeast for the past 15 years, specializing in power generation and transmission environmental services, hazardous waste assessment and remediation, brownfield programs, and groundwater resources and water supply consulting.

EnSafe's President and CEO, Don Bradford, highlighted the strategic significance of the acquisition, stating, "Resolute Environmental and Water Resources Consulting established a strong niche in the Southeast, particularly in the Utilities Sector. This acquisition establishes a physical presence for EnSafe in Georgia and unlocks exciting opportunities to serve Resolute's esteemed and long-standing client base. We are thrilled about the possibilities this partnership brings and look forward to the journey ahead!"

"The alignment of values between the companies makes Resolute a natural fit with EnSafe and provides our clients with the reassurance that they will continue to receive the same level of attention and service to which they are accustomed," said Stephen Wilson, Founder of Resolute. "Joining forces with EnSafe amplifies our strengths by offering broader service lines and deeper bench strength. This union will also create new opportunities to impact and serve clients even more effectively, allowing us to build upon our shared values. This alignment and the opportunities ahead make this next chapter both promising and truly exciting for us."
