

HEI Acquires HTPO

February 03, 2025

We are thrilled to announce that HEI has acquired Hansen Thorp Pellinen Olson, Inc. (HTPO)!

HTPO, based in Eden Prairie, Minnesota, brings more than 40 years of expertise in civil engineering, land surveying, landscape architecture, and construction management services. Their dedication to meeting clients' goals with integrity, creativity, and technical prowess perfectly aligns with our own values here at HEI.

“The services that the HTPO Team provide complement the work HEI is already doing in the Twin Cities market through our Maple Grove office. They are a great group of people and their firm culture and values align well with ours at HEI. We are excited to see how our growing team will continue our mission of making positive impacts to communities through collaborative partnerships and innovation.” – Gregg Thielman, President/CEO, HEI

“Having been with HTPO since graduating as a Civil Engineer over 20 years ago, I’m quite excited for this next chapter as we join HEI’s stellar team. This acquisition opens up new opportunities for all of our staff, and we look forward to providing improved and expanded services and value to our clients! – Aaron Carrell, Principal/President, HTPO

This acquisition allows us to expand our offerings from 12 offices across five states, enhancing our ability to serve our clients even better. We couldn’t be more thrilled to welcome the talented HTPO team to our HEI family. Their passion and expertise will undoubtedly help us reach new heights together.
