

Pennoni Strengthens Services with Midlantic Engineering

March 10, 2025

Pennoni, a multidisciplinary engineering firm headquartered in Philadelphia, is thrilled to announce the acquisition of Midlantic Engineering, in Pittston Township, PA. Effective immediately, Midlantic employees will be members of Pennoni.

We are excited to welcome Midlantic to the Pennoni family. Midlantic has built a strong reputation for delivering high-quality solutions, and we look forward to integrating their expertise with our own to provide even greater value to our clients. Together, we will continue to uphold our shared commitment to innovation, client service, and technical excellence, ensuring a seamless transition for both teams and the clients we serve,” says Andrew Pennoni, PE, regional vice president at Pennoni.

This strategic acquisition aligns seamlessly with Pennoni’s commitment to delivering innovative engineering solutions by expanding our inspection services and enhancing our capabilities in the geotechnical, civil, and environmental sectors. Midlantic is a firm that shares Pennoni’s commitment to excellence, innovation and client-focused solutions.

Midlantic’s extensive experience spans more than 30 years, providing top-notch geotechnical engineering services to a diverse clientele, including government, private, and non-profit sectors. Their impressive portfolio encompasses successful projects in road construction, public infrastructure and building sites. This integration broadens our service offerings and strengthens our ability to provide timely and cost-effective solutions.

“This partnership marks an exciting new chapter for our team and clients, as we now have access to an expanded range of services and resources. By combining our expertise with Pennoni’s multidisciplinary capabilities, we can provide even more comprehensive solutions to our existing clients while continuing to deliver the high-quality service they expect. We look forward to this new journey and the opportunities it will bring,” says Tim Burns, PE, president at Midlantic Engineering.

We are confident that this union will enhance the value we offer our clients and foster a collaborative environment that encourages innovation and professional growth and reflects a deep understanding of engineering challenges and innovative solutions. We look forward to building upon our shared commitment to excellence and contributing positively to the communities we serve.
