

Pennoni Expands Southern New Jersey Presence with Acquisition of MV Engineering

April 17, 2025

Pennoni, a multidisciplinary engineering firm headquartered in Philadelphia, is delighted to announce the purchase of assets from MV Engineering LLC, an engineering consulting firm based in Cape May Court House, NJ. This strategic acquisition enhances Pennoni's capabilities in site planning, wastewater management, and waterfront development while expanding its presence in southern New Jersey. Effective immediately, the group will operate as the MV Engineering Division of Pennoni and staff will move into Pennoni's existing Cape May Court House office.

MV Engineering's portfolio includes a diverse range of projects, such as sewer, water and stormwater drainage design, regulatory permitting services and soils testing. Their collaborative approach and dedication to client satisfaction have earned them a trusted reputation in the industry.

"We're excited to officially welcome MV Engineering to the Pennoni team. Their proven experience and local knowledge will help expand our regional presence and enhance the services we provide to clients throughout southern New Jersey," says David A. DeLizza, PE, president and CEO at Pennoni.

Founded in 1980, MV Engineering has built a strong reputation for delivering innovative engineering solutions across various sectors, including residential, commercial, and municipal projects. Their expertise encompasses on-site wastewater disposal system design, marina and waterfront development, subdivision planning, and municipal engineering services.

"Joining forces with Pennoni represents an exciting opportunity for our team and clients. Pennoni's multidisciplinary resources and commitment to excellence will enable us to offer enhanced services and tackle more complex projects. We look forward to this new chapter and the opportunities it brings," says Brian J. Murphy, PE, PP, CME at MV Engineering.

"The combination of MV Engineering's expertise and Pennoni's resources will enable us to better serve our clients' needs and each project's specific demands and challenges. We are eager to build an even stronger partnership with our clients in the years to come", adds Cynthia S. Chemerys, PE, PP, CME, at MV Engineering.
