Burrell Consulting Group Entered Into A Strategic Partnership With Mackay Sposito

Natick, MA (April 15, 2025) – Burrell Consulting Group, a civil engineering and land surveying firm based in Roseville, California, entered into a strategic partnership with MacKay Sposito, a multidisciplinary consulting firm based in the Pacific Northwest.

Founded in 1990, Burrell Consulting Group brings more than 35 years of experience in land development and energy markets and a team of 20 professionals who are deeply rooted in their region. The Burrell office will continue operating under its current name for now, with plans to rebrand as a branch office of MacKay Sposito in the future. President Jerry Aplash will remain in his leadership role and continue guiding the Roseville team.

“This decision was made with intention and collaboration,” said Derrick Smith, President and CEO of MacKay Sposito. “Burrell’s reputation, expertise, and culture of care align exceptionally well with who we are as a company. By bringing our teams together, we’re not only expanding into a new geographic market—we’re strengthening the value we bring to clients and opening the door to future opportunities for our employees.”

Together, the two firms will offer expanded services across civil engineering, land surveying, energy, land development, public works, landscape architecture, environmental services, and construction management.

Morrissey Goodale, a specialized management consulting and research firm exclusively serving the architecture, engineering, and environmental consulting industries, Morrissey Goodale initiated the transaction and advised Burrell Consulting Group.
