**Thomas & Hutton Acquires Florida Engineering Group, Inc.**

Natick, MA (April 8, 2025) – Florida Engineering Group, Inc. (FEG), a civil engineering firm based in Orlando, Florida, joins Thomas & Hutton, a Southeast-based firm that offers consulting services for land development and infrastructure projects.

Orlando is Thomas & Hutton’s first Florida location market and enhances its opportunities to serve clients across the commercial, industrial, institutional, municipal, and residential sectors.

Founded in 1993, FEG successfully completed projects throughout Florida, Georgia, and Dubai and Saudi Arabia. With FEG, Thomas & Hutton now operates across six states: Georgia, South Carolina, North Carolina, Tennessee, Alabama, and Florida.

“The addition of FEG and Orlando is a significant step in our growth strategy,” says Jason Chambless, PE, Principal and Vice President of Civil/Site Development at Thomas & Hutton. “FEG’s reputation, regional knowledge, and technical expertise are a strong complement to Thomas & Hutton’s culture and services. We’re excited to bring them into the Thomas & Hutton team.”

“We’re proud of what we’ve built at FEG and are excited to become part of Thomas & Hutton,” said Sam Sebaali, PE, founder of FEG and now Regional Director for Thomas & Hutton’s Orlando operations. “Joining Thomas & Hutton allows us to serve our clients with expanded resources and support, while continuing the quality and responsiveness they’ve come to expect.”

Morrissey Goodale, a specialized management consulting and research firm exclusively serving the architecture, engineering, and environmental consulting industries, initiated the transaction and advised Thomas & Hutton.
