**Dagher Engineering Joins Pennoni**

Natick, MA (July 1, 2025) – Pennoni, a multidisciplinary engineering firm headquartered in Philadelphia, acquired the assets of Dagher Engineering, an award-winning building systems engineering and sustainability consulting firm based in New York City. Dagher Engineering will immediately operate as “The Dagher Engineering Division of Pennoni,” and its full staff will join the firm. This strategic move significantly broadens Pennoni’s service offerings and presence in the New York market, reflecting the firm’s long-term vision for growth and innovation in the region.

Dagher Engineering’s portfolio complements and extends Pennoni’s core services beyond traditional mechanical, electrical and plumbing (MEP) services. Dagher is recognized as an award-winning building systems engineering and sustainability consulting firm. Its comprehensive offerings include both fundamental building systems design and advanced high-performance services.

“We are thrilled to welcome Dagher Engineering’s talented team to the Pennoni family. Dagher’s renowned expertise in high-performance building systems and sustainable design will significantly deepen our presence in New York, complementing our existing services beyond core MEP. Together, we will deliver integrated, future-ready solutions that drive client success and position us for long-term growth,” says Dave DeLizza, PE, president and CEO of Pennoni.

“This is an exciting new chapter for Dagher Engineering. Joining forces with Pennoni gives our team access to a broader platform to deliver the efficient, sustainable solutions our clients demand. Pennoni’s robust resources and shared commitment to innovation and sustainability make this a natural partnership. Together, we will be able to tackle ambitious projects and provide even greater value to our clients and communities,” added Elias Dagher, PE, LEED AP, CPHC, senior principal at Dagher Engineering.

Morrissey Goodale, a specialized management consulting and research firm exclusively serving the architecture, engineering, and environmental consulting industries, initiated the transaction and advised Dagher Engineering.

**About Morrissey Goodale:**

Morrissey Goodale has helped hundreds of clients transform and grow their architecture, engineering, and environmental consulting companies into high-level performers through strategic business planning, mergers and acquisition advisory, valuation and ownership transition, market research, marketing and business development, leadership training and development, Lean Operation Strategies, organizational development and management, AI and innovation, and acquisition integration services. Morrissey Goodale's team of M&A consultants assist throughout the M&A process, from preparing firms for a transaction to a successful integration.

Morrissey Goodale's extensive network of relationships with AE industry decision-makers around the globe uniquely qualifies the firm to identify the right buyers or sellers and guide AE firms through the complex merger or acquisition process, from conception to close.
